This issue's disclaimer:

To honestly deal with the topic of rape—particularly  
when it comes to the rapist's psychic landscape—we felt it  
necessary to use graphic language and imagery.

Performing some of the acts described herein  
can land your tushie behind bars,  
so we don't advocate trying any of them.  
(Is that OK, Your Honor?)

Dedicated to your mother. Your wife.  
Your sister. Your daughter...
